CERTIFICATE OF GLOBAL RECOGNITION

PRESENTED TO

ASTRID CANDRASARI

COMMUNITY DEVELOPMENT HEAD
PT BANK CIMB NIAGA TBK

ACKNOWLEDGED AS

ESG IMPACT MANAGER

BASIS FOR LEADERSHIP RECOGNITION

Before: Social challenges such as child malnutrition, limited early detection, economic vulnerability, and unequal access to community capacity-building were more than social concerns. Left unaddressed, they could deepen human vulnerability, weaken long-term resilience, and increase social and economic risks for communities and stakeholders.

Transformations: Through Astrid Candrasari's leadership in Community Development, CIMB Niaga has translated these challenges into structured interventions across education, health and community well-being, economic empowerment, and climate and environment. One significant example is the #CegahStunting initiative, which brings early detection closer to schools, communities, and homes while empowering families, teachers, and health cadres to act earlier.

Significance: Leadership becomes meaningful when social investment moves beyond assistance and builds the capacity of people to protect their own future. Astrid's leadership demonstrates how risk awareness, community empowerment, stakeholder collaboration, impact measurement, and responsible program management can strengthen human resilience while contributing to the protection of long-term economic and stakeholder value.

RECOGNITION LEVEL

PLATINUM LEADER PERFORMANCE 95.05

THIS CERTIFICATE, ACCOMPANIED BY TWO APPENDICES, IS HEREBY ISSUED IN JAKARTA ON OCTOBER 21, 2026

FOLLOWING AN ASSESSMENT CONDUCTED USING THE LA TOFI ESG RATING ASSESSMENT FRAMEWORK, THIS PROGRAM HAS BEEN AWARDED

PLATINUM GLOBAL PERFORMANCE

ASSESSMENT PILLAR	SCORE	WEIGHT	WEIGHTED SCORE
LRMI (Local Risk Mapping Index)	100.0	**15%**	**15.00**
RSAI (Risk–Strategy Alignment Index)	100.0	**15%**	**15.00**
AMS (Action Mitigation Score)	94.0	**15%**	**14.10**
FVS (Field Verification Score)	92.0	**15%**	**13.80**
HWR (Humanitarian Workforce Readiness)	89.0	**15%**	**13.35**
HCR (Humanitarian Crisis Response)	94.0	**10%**	**9.40**
EPC (Economic Protection Contribution)	96.0	**15%**	**14.40**
TOTAL		**100%**	**95.05**

- **LRMI (100)** → The maximum LRMI score reflects Astrid Candrasari's very strong capacity to understand material social, environmental, and stakeholder risks as the foundation for Community Development strategy. Her responsibilities include CSR strategy, governance, impact measurement, stakeholder engagement, ESG disclosure, and risk management. This capacity is further strengthened by professional risk management certification and extensive experience in research and impact analysis.
- **RSAI (100)** → The maximum RSAI score demonstrates an exceptional alignment between identified risks and program strategies. Under Astrid's Community Development leadership, material challenges are translated into structured interventions across education, health and community well-being, economic empowerment, and climate and environment. In #CegahStunting, for example, material nutritional risks are addressed through PAUD Peduli Wasting, family-based MUAC measurement, community health volunteers, universities, and the From Farm to Fork approach.
- **AMS (94)** → The AMS score reflects a very high level of program implementation and mitigation capability. Astrid oversees the design, implementation, governance, and impact measurement of bank-wide CSR programs and spearheaded the development and execution of a three-year UNICEF partnership supporting stunting prevention in Kupang, NTT. The score remains below the maximum because program outcomes represent collective institutional achievements and cannot be attributed exclusively to one individual.
- **FVS (92)** → The FVS score indicates strong evidence-based program management supported by Astrid's extensive background in research, data analysis, monitoring, impact assessment, and sustainability reporting. Her earlier professional experience included needs assessments across more than 1,000 bank branches, management of over 50,000 data points monthly, program performance monitoring, and impact assessment. Further improvement would require stronger longitudinal outcome evidence, baseline–endline measurement, and independent verification across the current portfolio.

- **HWR (89)** → The HWR score reflects meaningful contributions to human welfare and community resilience through programs addressing health, education, economic empowerment, and community well-being. The #CegahStunting initiative demonstrates this orientation by empowering families, teachers, and health cadres to participate directly in early detection, helping transform communities from passive beneficiaries into active protectors of children's futures. The score remains deliberately measured because stronger longitudinal evidence of resilience outcomes would further substantiate the individual leadership contribution.
- **HCR (94)** → The HCR score demonstrates a very strong capacity for stakeholder communication, coordination, and influence. Astrid's current responsibilities require engagement with regulators, NGOs, government agencies, community organizations, internal functions, and external stakeholders. Her previous leadership experience also demonstrates an ability to influence senior management and Asia-Pacific and global teams through evidence-based communication and strategic analysis. The score is not placed at the maximum level because available evidence does not yet demonstrate substantial direct leadership in communication during a major crisis situation.
- **EPC (96)** → The EPC score demonstrates an exceptional contribution to transforming community investment into mechanisms that can help protect long-term economic value. A key program within CIMB Niaga's Community Development portfolio, #CegahStunting, achieved a CEPI score of 2.94 — Champion Candidate, with an estimated Economic Protection Value of approximately IDR 4.41 billion from total program investment of IDR 1.50 billion. This indicates that every IDR 1 invested is estimated to protect approximately IDR 2.94 of economic value within the program's relevant scope of influence. Astrid's leadership in CSR strategy, program governance, impact measurement, partnership management, and stakeholder engagement strengthens the relevance of her contribution to economic protection. Nevertheless, the resulting economic protection value remains a collective program achievement and should not be attributed entirely to one individual.

With a final score of 95.05, Astrid Candrasari demonstrates an exceptionally high level of alignment across risk identification, strategy formulation, mitigation implementation, impact verification, human welfare, stakeholder communication, and economic protection contribution. One of the strongest characteristics of her leadership profile is the integration of research capability, risk awareness, data-driven decision-making, program governance, stakeholder engagement, and impact measurement. Her professional journey—from research and development in banking, conservation and fundraising leadership, to her current role as Community Development Head at CIMB Niaga—provides a strong foundation for approaching CSR not merely as philanthropic activity, but as a strategic instrument for creating measurable social value and strengthening resilience. Her earlier roles included large-scale CSR needs assessment, program impact monitoring, sustainability reporting, strategic fundraising, partnership development, and data-driven management. Under her current leadership scope, CIMB Niaga's Community Development strategy encompasses Education, Health & Community Well-being, Economic Empowerment, and Climate and Environment, supported by partnerships with regulators, government institutions, NGOs, and community organizations. The #CegahStunting initiative provides a particularly strong illustration of this approach by connecting material human-development risks with community-based early detection, capacity building, stakeholder collaboration, and economic protection. Based on the assessment conducted using the La Tofi ESG Leadership Assessment Framework, Astrid Candrasari is classified within PLATINUM LEADER PERFORMANCE. This recognition represents leadership with an exceptional capacity to translate risk-based ESG principles into strategy, action, measurable impact, stakeholder value, human resilience, and economic protection.
