CERTIFICATE OF GLOBAL RECOGNITION

PRESENTED TO

ILHAM

AVIATION FUEL TERMINAL MANAGER BIL
PT. PERTAMINA PATRA NIAGA
AVIATION FUEL TERMINAL BANDARA INTERNATIONAL LOMBOK

ACKNOWLEDGED AS

OPERATIONAL ESG IMPACT LEADER

BASIS FOR LEADERSHIP RECOGNITION

Before: Sukarara faced interconnected challenges involving drought and limited access to clean water, economic vulnerability among women weavers, environmental pressures, waste, and the declining sustainability of traditional Sasak weaving. These conditions represented not only community challenges, but also material ESG risks within the broader operating environment.

Transformations: Through Ilham's managerial leadership, MINA TENUN strengthened the integration of traditional weaving, renewable-energy innovation, clean-water access, circular waste utilization, women's economic empowerment, and cultural preservation. The program demonstrates how local wisdom can be transformed into a practical response to environmental, social, and economic risks.

Significance: Leadership becomes meaningful when local risks are transformed into shared resilience. MINA TENUN demonstrates how ESG leadership can connect community empowerment, cultural preservation, environmental innovation, and economic protection—strengthening communities while contributing to a more resilient operating environment.

RECOGNITION LEVEL

PLATINUM LEADER PERFORMANCE 94.25

THIS CERTIFICATE, ACCOMPANIED BY TWO APPENDICES, IS HEREBY ISSUED IN JAKARTA ON OCTOBER 21, 2026

ASSESSMENT OF OPERATIONAL ESG IMPACT LEADER IN INDONESIA 2026

THE ASSESSED INDIVIDUAL

ILHAM
AVIATION FUEL TERMINAL MANAGER BIL
PT. PERTAMINA PATRA NIAGA
AVIATION FUEL TERMINAL BANDARA INTERNATIONAL LOMBOK (BIL)

FOLLOWING AN ASSESSMENT CONDUCTED USING THE LA TOFI ESG RATING ASSESSMENT FRAMEWORK, THIS PROGRAM HAS BEEN AWARDED

PLATINUM GLOBAL PERFORMANCE

ASSESSMENT PILLAR	SCORE	WEIGHT	WEIGHTED SCORE
LRMI (Local Risk Mapping Index)	100.0	**15%**	**15.00**
RSAI (Risk–Strategy Alignment Index)	100.0	**15%**	**15.00**
AMS (Action Mitigation Score)	94.0	**15%**	**14.10**
FVS (Field Verification Score)	91.0	**15%**	**13.65**
HWR (Humanitarian Workforce Readiness)	88.0	**15%**	**13.20**
HCR (Humanitarian Crisis Response)	92.0	**10%**	**9.20**
EPC (Economic Protection Contribution)	94.0	**15%**	**14.10**
TOTAL		**100%**	**94.25**

- **LRMI (100)** → The maximum LRMI score reflects Ilham's strong understanding of material local ESG risks surrounding AFT BIL and its communities. His leadership maintains a clear focus on interconnected risks involving drought and limited access to clean water, energy and environmental pressures, waste, the sustainability of Sasak weaving traditions, women's economic vulnerability, and corporate-community relations. These material risks provide a strong risk-based foundation for ESG program management.
- **RSAI (100)** → The maximum RSAI score demonstrates exceptionally strong alignment between material risks and program strategies. Under Ilham's leadership, MINA TENUN connects water scarcity with renewable-energy innovation, economic vulnerability with women's empowerment, waste with circular utilization, and cultural risk with the preservation and economic revitalization of Sasak weaving. This demonstrates that ESG risks are translated into relevant and integrated strategic interventions. The program assessment itself demonstrates full alignment between significant risks and program strategies.
- **AMS (94)** → The AMS score reflects a very high level of mitigation action and program implementation. MINA TENUN integrates renewable-energy innovation, clean-water distribution, women's empowerment, waste utilization, economic development, institutional strengthening, and cultural preservation. Ilham's managerial contribution is further demonstrated through the allocation of attention, resources, and dedicated personnel to support community development. The score is not placed at the maximum level because several program outcomes remain collective organizational achievements and cannot be attributed exclusively to one manager.
- **FVS (91)** → The FVS score indicates strong evidence supporting the impacts generated through the program, including beneficiary participation, income indicators, energy and waste outcomes, stakeholder engagement, documentation, and program replication. However, a prudent assessment requires recognition of remaining evidence gaps, particularly in baseline–endline measurement, independent verification, direct reputation indicators, and more detailed environmental impact calculations.

- **HWR (88)** → The HWR score reflects a strong foundation in workforce responsibility supported by Ilham's extensive professional experience in aviation operations, maintenance, occupational safety, HSSE, and management development. His professional development includes safety, environmental management, integrated management systems, Behaviour Based Safety, Respectful Workplace, and senior management training. The assessment remains deliberately prudent because comprehensive evidence on employee engagement, workforce wellbeing, safety outcomes, talent development, and other internal workplace indicators is still limited.
- **HCR (92)** → The HCR score reflects Ilham's strong capacity for communication, stakeholder engagement, coordination, and influence. Managing an aviation fuel terminal while sustaining multi-stakeholder community programs requires effective communication across operational teams, communities, government stakeholders, and program partners. His leadership in maintaining community engagement and communicating the relationship between cultural preservation, community empowerment, and economic value further strengthens this assessment. The score is not placed at the highest level because available evidence does not yet demonstrate substantial direct leadership in communication during a major crisis or significant reputational event.
- **EPC (94)** → The EPC score demonstrates Ilham's strong leadership contribution to translating ESG investment into economic protection. MINA TENUN achieved a Corporate Economic Protection Index (CEPI) of 2.79, with an estimated Economic Protection Value (EPV) of IDR 440,742,960 from a total program investment of IDR 158,000,000.

With a final score of 94.25, Ilham demonstrates an exceptionally high level of ESG leadership across material risk identification, strategic alignment, mitigation action, impact verification, workforce responsibility, stakeholder communication, and economic protection. One of the strongest characteristics of his leadership profile is the ability to connect operational responsibility with community resilience. Under his leadership, ESG is not positioned merely as a collection of social activities, but as a management approach that responds to material risks surrounding the operating environment. Through MINA TENUN, this approach is reflected in the integration of traditional Sasak weaving, renewable-energy innovation, clean-water access, circular waste utilization, women's economic empowerment, cultural preservation, and community participation. The program demonstrates how local wisdom can become part of a contemporary ESG solution. Ilham's leadership also provides organizational support for community development by ensuring that CSR receives adequate attention, resources, and dedicated personnel. This strengthens the institutional foundation required for programs to move beyond short-term assistance toward sustained community empowerment. The economic dimension further strengthens his leadership profile. With CEPI 2.79, MINA TENUN demonstrates that sustainability investment can contribute not only to social and environmental benefits, but also to risk mitigation, resilience, stakeholder trust, and the protection of long-term economic value.Based on the assessment conducted using the La Tofi ESG Leadership Assessment Framework, Ilham is classified within:

PLATINUM LEADER PERFORMANCE — 94.25

This recognition represents operational ESG leadership with an exceptional capacity to translate material risks into strategy, action, community resilience, stakeholder value, and economic protection.
