CERTIFICATE OF GLOBAL RECOGNITION

PRESENTED TO

KRISDYAN WIDAGDO ADHI

DIVISION HEAD – CORPORATE SOCIAL RESPONSIBILITY
PT PERUSAHAAN GAS NEGARA (PERSERO) TBK

ACKNOWLEDGED AS

OPERATIONAL ESG IMPACT LEADER

BASIS FOR LEADERSHIP RECOGNITION

Before: Across diverse operating environments, environmental, social, livelihood, institutional, and stakeholder risks required more than conventional CSR activities. These interconnected challenges had the potential to affect community resilience, stakeholder trust, the stability of operating environments, and the long-term value surrounding the company's activities.

Transformations: Through Krisdyan Widagdo Adhi's leadership in Corporate Social Responsibility, social investment has increasingly been developed through a risk-based, stakeholder-centered, and impact-oriented approach. Community empowerment, environmental stewardship, livelihood resilience, institutional strengthening, disaster preparedness, and multi-stakeholder collaboration are brought together as part of an integrated CSR portfolio across PGN's operating ecosystem.

Significance: Leadership becomes meaningful when social investment moves beyond delivering activities and begins strengthening the systems that allow communities and businesses to remain resilient. Krisdyan Widagdo Adhi's leadership demonstrates how CSR can connect social and environmental impact with stakeholder trust, risk mitigation, and the protection of long-term economic value.

RECOGNITION LEVEL

ASSESSMENT OF OPERATIONAL ESG IMPACT LEADER IN INDONESIA 2026

THE ASSESSED INDIVIDUAL

KRISDYAN WIDAGDO ADHI
DIVISION HEAD – CORPORATE SOCIAL RESPONSIBILITY
PT PERUSAHAAN GAS NEGARA (PERSERO) TBK

FOLLOWING AN ASSESSMENT CONDUCTED USING THE LA TOFI ESG RATING ASSESSMENT FRAMEWORK, THIS PROGRAM HAS BEEN AWARDED

PLATINUM GLOBAL PERFORMANCE

ASSESSMENT PILLAR	SCORE	WEIGHT	WEIGHTED SCORE
LRMI (Local Risk Mapping Index)	100.0	**15%**	**15.00**
RSAI (Risk–Strategy Alignment Index)	100.0	**15%**	**15.00**
AMS (Action Mitigation Score)	94.0	**15%**	**14.10**
FVS (Field Verification Score)	93.0	**15%**	**13.95**
HWR (Humanitarian Workforce Readiness)	91.0	**15%**	**13.65**
HCR (Humanitarian Crisis Response)	92.0	**10%**	**9.20**
EPC (Economic Protection Contribution)	94.0	**15%**	**14.10**
TOTAL		**100%**	**95.00**

- **LRMI (100)** → The maximum LRMI score reflects Krisdyan Widagdo Adhi's strong leadership in ensuring that material environmental, social, livelihood, institutional, disaster, and stakeholder risks are recognized as the foundation of CSR planning. Across the assessed portfolio, risk identification is consistently embedded in program design, demonstrating that CSR interventions are developed in response to material conditions surrounding PGN's operating environments rather than as stand-alone social activities.
- **RSAI (100)** → The maximum RSAI score demonstrates exceptional alignment between identified risks and CSR strategies. Across the assessed portfolio, material risks are consistently translated into structured interventions, measurable targets, stakeholder collaboration, institutional strengthening, and resource allocation. This indicates a mature leadership approach in which risk understanding is directly connected to strategic social investment and implementation.
- **AMS (94)** → The AMS score reflects a very high level of mitigation action across Krisdyan Widagdo Adhi's CSR leadership portfolio. Interventions address environmental management, livelihood resilience, economic empowerment, disaster preparedness, community capacity, institutional development, and stakeholder engagement. The score remains below the maximum because several long-term outcomes still require stronger longitudinal evidence demonstrating the extent to which underlying risks have been permanently reduced.
- **FVS (93)** → The FVS score demonstrates a very strong level of evidence supporting the assessed CSR portfolio. Verification is supported by social mapping, implementation records, quantitative beneficiary data, impact analysis, stakeholder participation, monitoring documentation, and evidence of social, environmental, and economic outcomes. Further improvement would require stronger longitudinal measurement, harmonized data systems, baseline–endline evidence, and expanded independent verification.

- **HWR (91)** → The HWR score reflects strong leadership attention to human welfare, inclusion, livelihood security, and community resilience. The assessed CSR portfolio demonstrates interventions addressing vulnerable groups, economic empowerment, access to essential needs, community preparedness, and strengthening of local capabilities. The score is intentionally maintained below the highest range because long-term improvements in welfare and resilience still require deeper longitudinal measurement and clearer attribution to individual leadership.
- **HCR (92)** → The HCR score reflects Krisdyan Widagdo Adhi's strong capacity in communication, stakeholder engagement, coordination, and influence. His professional background spans corporate communication, strategic stakeholder management, public relations, government and community relations, and CSR leadership. His experience also includes crisis communication and stakeholder-risk mitigation, providing a strong foundation for managing relationships across complex operating environments. The score is not placed at the maximum level because available evidence does not yet demonstrate extensive individually attributable leadership during a major corporate or community crisis.
- **EPC (94)** → The EPC score demonstrates a very strong contribution to economic protection through ESG-based social investment. Across the assessed CSR portfolio, interventions consistently address material environmental, social, livelihood, institutional, and stakeholder risks while generating measurable economic protection value. The assessed initiatives demonstrate that CSR investment can function not merely as social expenditure but as an instrument for reducing economic exposure, strengthening resilience, protecting stakeholder trust, and supporting long-term business continuity. The score remains below the maximum because economic protection is ultimately generated through collective organizational performance and should not be attributed exclusively to one individual leader.

With a final score of 95.00, Krisdyan Widagdo Adhi demonstrates an exceptionally high level of leadership alignment across material risk identification, strategic response, mitigation implementation, impact verification, human welfare, stakeholder communication, and economic protection contribution. One of the strongest characteristics of his leadership profile is the integration of CSR, stakeholder management, corporate communication, and risk awareness. His professional journey across communication, stakeholder engagement, community relations, and CSR provides a strong foundation for approaching social investment as a strategic management function rather than merely a collection of community activities. Across diverse PGN operating environments, this leadership approach is reflected in a portfolio that consistently connects local material risks with structured social and environmental interventions, community capacity building, institutional strengthening, stakeholder collaboration, and measurable economic protection. His leadership also demonstrates an important transition in the role of CSR: from delivering assistance toward building resilience, institutional capacity, stakeholder trust, and long-term shared value. Based on the assessment conducted using the La Tofi ESG Rating Leadership Assessment Framework, Krisdyan Widagdo Adhi is classified within PLATINUM LEADER PERFORMANCE. This recognition represents leadership with an exceptional capacity to translate risk-based ESG principles into strategy, action, measurable impact, stakeholder value, community resilience, and economic protection.
